[Orientation] button

6

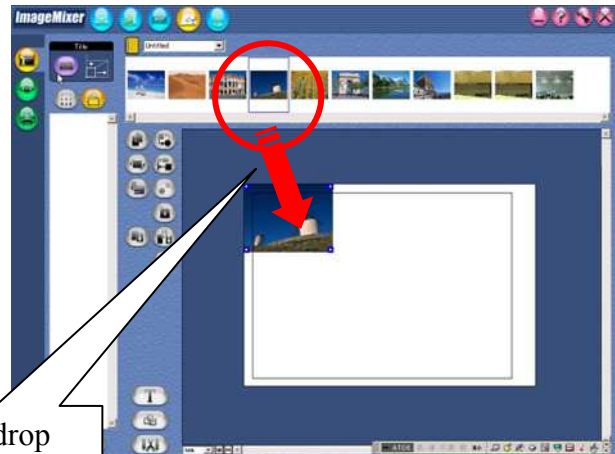

Arranging still image onto the layout

Drag & drop still image onto the layout.

【 Reference 】

Drag & drop operation is to left-click a still image and hold down the mouse button, then bring to desired position and release button.

Drag & drop

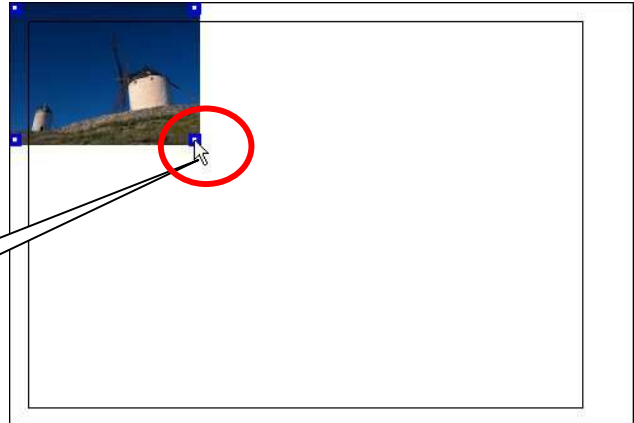

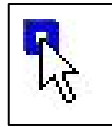

7

Changing the size of still image

Click the image on the layout.

Control points appear in the corners of the image.

Bring the mouse pointer onto control point.

Drag the control point while pressing down the [Shift] key of the keyboard to change the size.

8

Moving still image

Bring mouse pointer onto the image and drag to desired position.

【Reference】

You can move the image using [↑][↓][←][→] keys of the keyboard. This operation is convenient for fine adjustment.

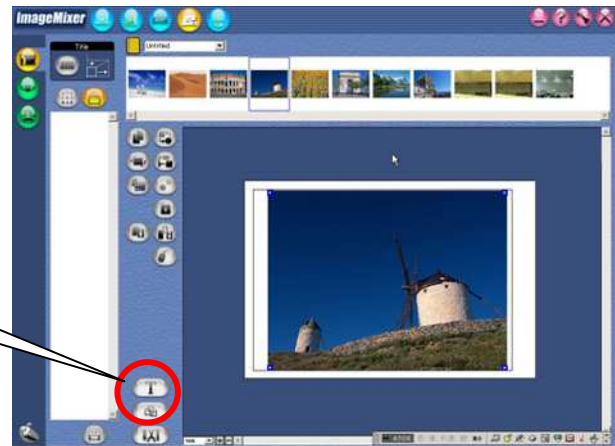

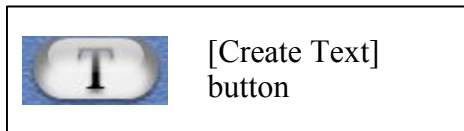

9

Arranging text

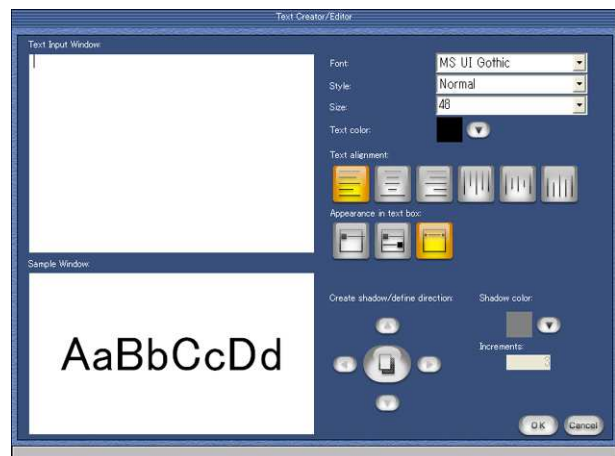

If you are going to print out image only, skip to the next step, “Print out”.

Click the [Create Text] button.

Text Creator/Editor window is displayed.

Enter text in the [Text Input Window] and set font and size. Click the [OK] button to arrange text on the layout.

Enter text here.

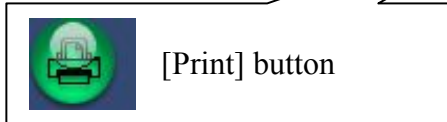

【 Reference 】

Text position can be moved as well. Please refer to step 8, “Moving still image.”

10

Print out

When you fix the size and arrangement of the image and text, click the [Print] button to print out.

Print setting dialog is displayed.
Check printer name and settings, then click the [OK] button.

【 Reference 】

When you select high resolution, it may take time to print out.
