

Edit (rotate, change size) Still Images!

How to change the direction and size of captured still images

Preparation

Before starting

- Capture still images using “ImageMixer”.

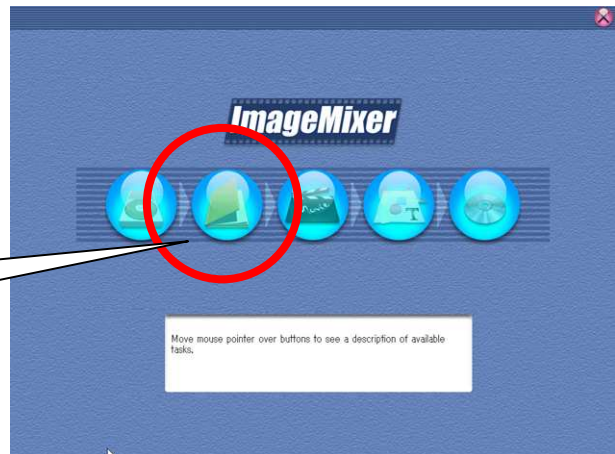

1

Starting Album Environment

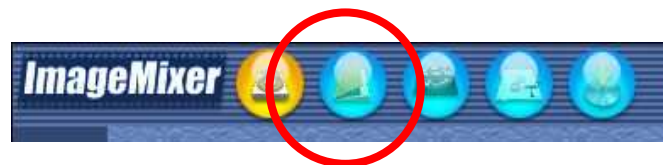

Start “ImageMixer” and click the [Album Environment] button in the Main Selector.

[Album Environment] button

When “ImageMixer” has already been started and you are on a different environment, click the [Album Environment] button in the Selector Bar on the top left of the screen.

2

Starting Image Editor

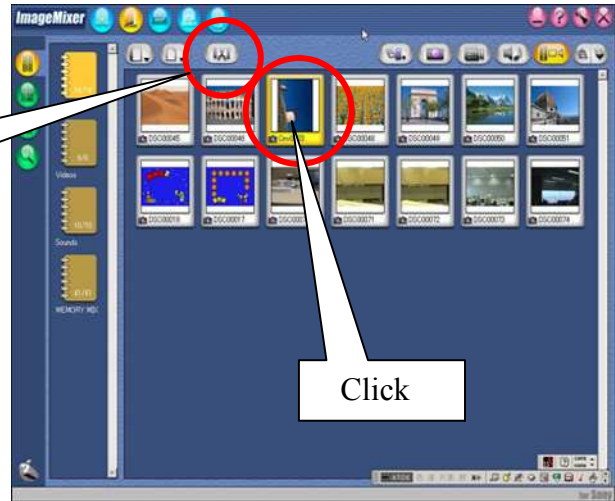

Select the still image to edit and click the [Image Edit] button.

[Image Edit] button

【 Reference 】

[Image Edit] button can be clicked by selecting still image. The button is not active if no still image is selected.

3

Changing still image display size

If selected image is displayed partially or too small, you can change the magnification.

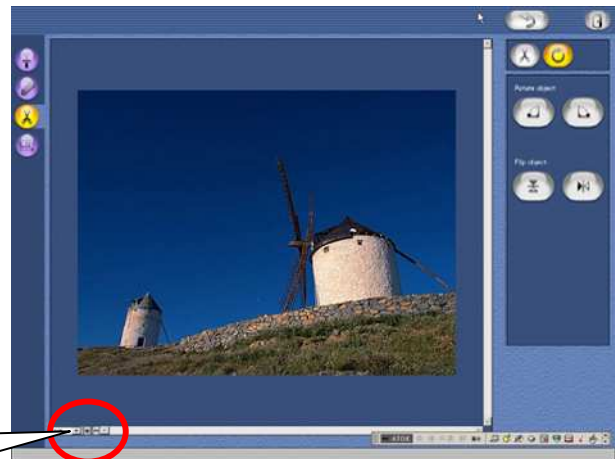

Magnification can be altered by clicking the [+] [-] button on the bottom left of the screen.

[Magnification] button

【 Reference 】

The change in this operation does not affect actual image size but for display size.

4

Editing

- To rotate the image → Refer to step 5 to 8.
- To change image size → Refer to step 9 to 12.

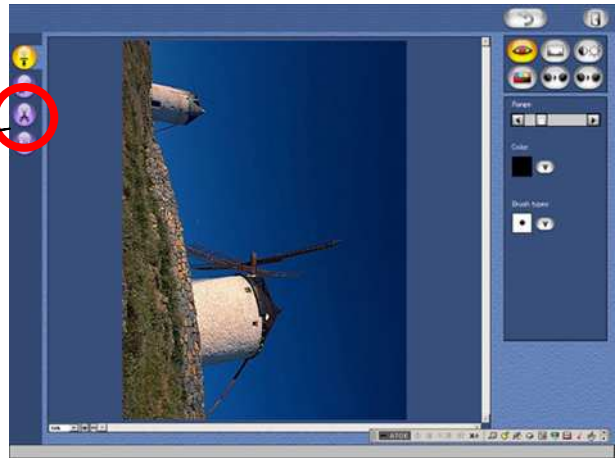

5

Rotating image

Click the [Crop/Rotate/Flip Mode] button

[Crop/Rotate/Flip Mode] button

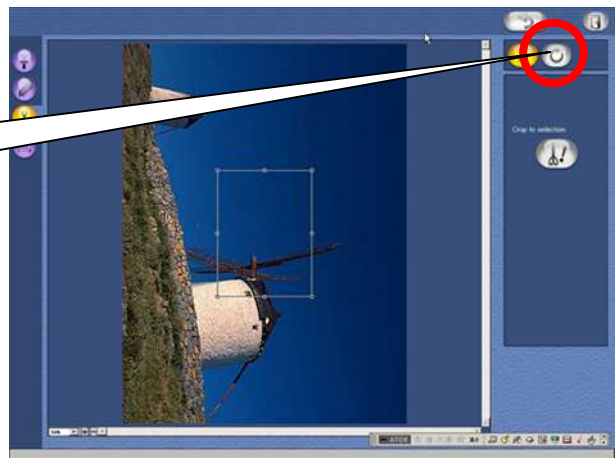

6

Rotating image

Click the [Rotate/Flip] button.

[Rotate/Flip] button

7

Rotating image

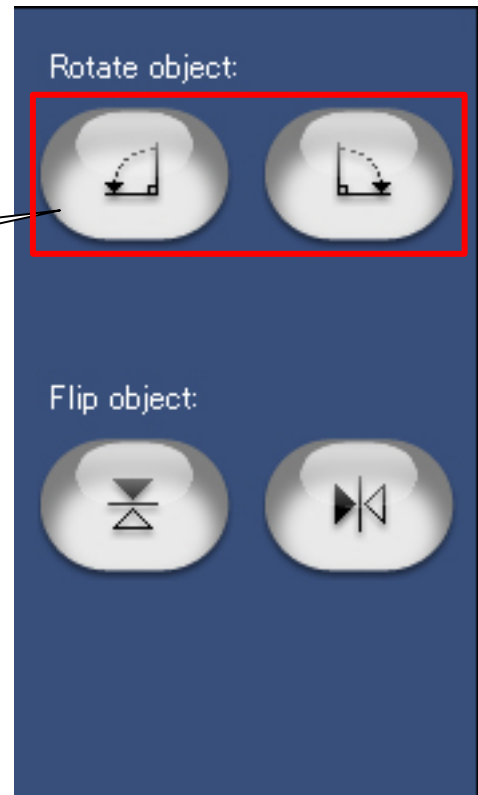

When you click the [Rotate Couterclockwise]/[Rotate Clockwise] button in “Rotate object”, the image rotates 90 degrees to (counter)clockwise.

[Rotate Couterclockwise] button

[Rotate Clockwise] button

8

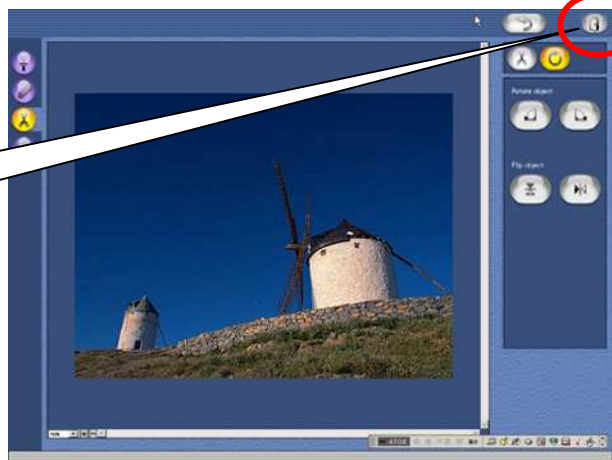

Save

When the image is in position, click the [Close] button on the top right of the screen.

[Close] button

Returns to Album Environment and edited image is automatically saved and registered to the Album.

9

Changing image size

Click the [Image Resizing Mode] button.

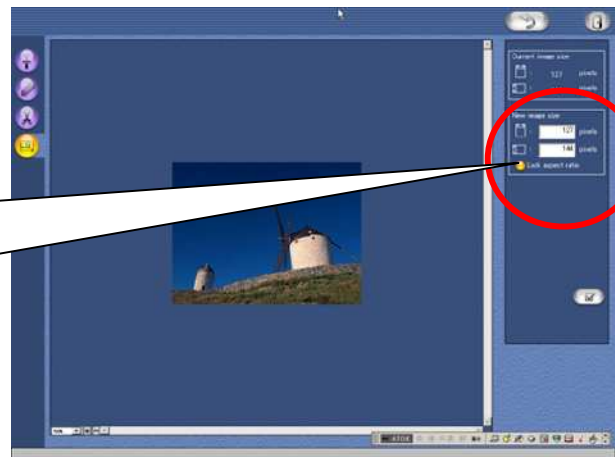

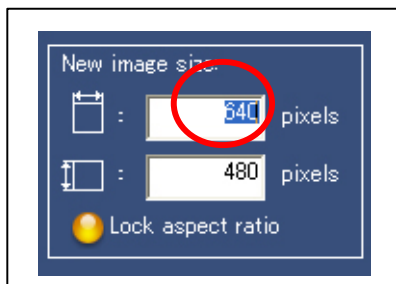

[Image Resizing Mode] button

10

Resizing image

Delete the value in the box at “New Image Size” and enter desired value in pixels.

【 Reference 】

- The value in the box turns blue when dragged.
- The value is in pixels.
- As a rough guide, 640 x 480 pixels are about the size of a post card.
- Undo the [Lock aspect ratio] if you want to alter width/height separately.

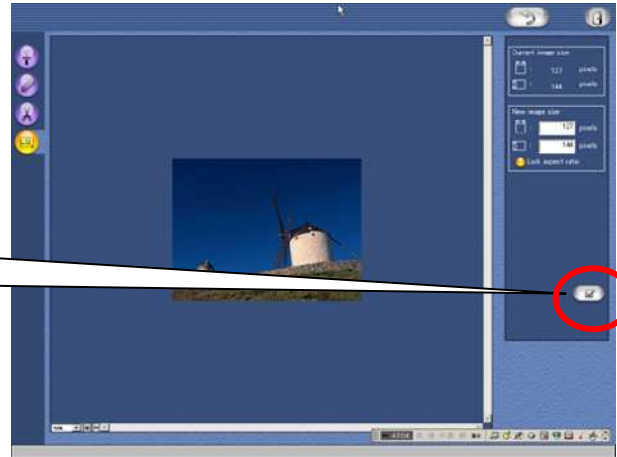

11

Determining image size

Click the [OK] button to determine the size.

[OK] button

12

Save

Click the [Close] button on the top right of the screen.

[Close] button

Returns to Album Environment and edited image is automatically saved and registered to the Album.
